Re: BZA Application No. 16622

Dear Ms. Kress,

Although the effort of communications have been facilitated there have been many opportunities unnecessarily missed to bring closure to the issue regarding Application # 16622 for The Sasha Bruce House. The Office Manager for ANC 6A Felicia Wardrick has detailed calling logs on the dates she tried to contact Representatives of the Sasha Bruce House and finally days before the first (Oct 24th) hearing someone chose to respond. I received a call on the 19th of November requesting my presence at a community reception without prior notice 2hours before the start of the reception and a week after I asked Ms. Shore to facilitate a tour of the premises for the community and received no action of prior planning.

I have since asked for a list of community members who participated in the reception for a query to make a report and have not received it. I do intend on making a personal visit to their facility if time permits to hopefully receive a copy of this list. These occurrences of lapse communications have been consistent and untimely for me. As the ANC Single Member District Commissioner I am requesting that record remains open to allow me to investigate the full impact of community concerns and comments in so that I can give the ANC the proper information to make an educated decision on this application.

Thank you,

Marvin F. Fields, Jr.
