Statement of Intended Use

The building in question (6683 32nd Place, N.W., Lot 16, Square 2351) is a freestanding, single-family residence in a residential area. It is occupied solely by the owners, Mr. and Mrs. Jonathan B. Rickert, as their principal residence. The proposed modest enlargement of the family room at the back of the house would enable them to employ it more effectively as space for reading, watching television, using the computer, and for entertaining than is possible under the current configuration. The enlarged room would be used by the owners alone for their personal enjoyment.
