Re: BZA Application No. 16631

Dear Ms. Kress,

I would like to express my full support for the Alliance Française de Washington and let you know that I have no objections whatsoever concerning the work that its management intends to start in the accessory garage on its premises.

The Alliance Française is an excellent neighbor, and has never caused any problems, nor has any of its students. My wife and I have attended a number of their events, and we are confident that they are considerate and careful participants in this special Kalorama community. I am actually glad to hear about this project: the garage is not in very good condition at present, and I am sure that it will look much better after the work completed. One can only imagine our French neighbors redoing the garage in great style and with an impeccable sense of esthetics.

Please give them every consideration required to grant them the permits for the work on the garage that they are planning to do without any delay. Should you have any questions regarding this matter, please do not hesitate to contact me at the coordinates given above.

Sincerely,

Eugene P. Vricella
