June 6, 2001

The following study was conducted in May 2001.

It shows the amount of parking spaces available in the area at the time when our classes are given (mostly in the evening, from 6 to 8 PM and 8 to 10 PM). The spaces used by our motorized students are usually those reserved during the day for Embassies.

60 % of our students come by public transportation and it has never been a problem for our students to come to our facility.

The neighborhood has never complained about any traffic generated by classes or cultural activities at the Alliance Française. Indeed, neighbours have always answered favorably about the contribution of the Alliance Française to the nightlife of the street.
