Application 16632

To whom it may concern,

I am writing in regards to the above application for a variance to allow members of the Medhane Alem Entrean Orthodox Church to park on our streets. I am truly concerned about parking on the streets. First of all, my particular block doesn't have a parking restriction of two hours as do some of the other blocks in the neighborhood. We can only park on certain sides of the street on some days. This already creates a problem for some of the residents. The average car per household is at three cars. Parking is difficult already. Secondly, the center on the corner park on our street during the week making parking more difficult as does the church that was started on the corner of 14th and Decatur on Sundays. Parking is difficult in the area already and to allow them to park on the streets will increase the difficulty. This parking will probably not only occur on Sundays, but on days when they have special services. I have no choice but to park on my street because of the two hour limits on all of the surrounding streets. So, please allow me the chance to park on my street without making it anymore difficult than it already is.

Thanks,

Sheila a. Joy
