Consumer at NCMHC/CSB/CMU-II

At this time, John's compliance with the recommended treatment has improved drastically in particular his attendance and level of participation. The treatment team attributes this to the constant support, the therapeutic environment of his present living quarters and the constant monitoring with follow up provided by Superior Services. John has shared his symptoms are decreasing and he also has been able to participate in his psychosocialization program. If you have questions, you may call me at 576-7172.
