George Lightfoot & Family
1329 Missouri Avenue NW
Washington, DC 20011

Subject: Support for Historic Preservation status/No Townhouse construction

TO WHOM IT MAY CONCERN:

We lend our support to the Lightfoot family with great enthusiasm for the Historic Preservation status they seek to solidify the protection of this fabulous slice of History inured to this area in Ward 4.

Certainly, this city the Nations Capital can ill afford another loss of great significance to the exciting History of this great city and nation.

Having lived in this Ward for almost 30 Years--those Virgin Woodlands behind 1329 has been a blessing Complimenting the special ambiance provided this wonderful Victorian Home…a tremendous jewel in our community that should not be encroached upon by this needless project seriously impacting an area already over burdened by horrendous traffic and meager parking.

The Oglethorpe Street Neighborhood Association REJECTS the construction of these Townhouses. Farther, this city should enforce illegal dumping throughout our great city with greater vigor than we have witnessed in recent memory. As the Capital City, protection must be given to preserve our precious Virgin woodlands and tributaries as well; areas with that special rural quality in a city like none other.

Sincerely,
James Boykins,
President OSNA
