Katherine C. Cannon
Subject Property: 1736 Hobart Street, NW
Lot 104, Square 2588

Application before the Board of Zoning Adjustment for the District of Columbia

4B. The subject property, 1736 Hobart Street, NW, is my home. Currently I have no backyard or possible enjoyment of sitting in the back of my home. The cement area behind my house is used for parking since parking gets tight in the evenings on my street.

Hobart Street is lined with back decks and it is the exception when a home does not have a back deck. Many of the decks go to the alleyway which is what I am requesting since my "back yard" is so short. Pictures are included in this application which show some of the current decks on my street that go to the alley.

Having a back deck will provide the opportunity for me and my family to be able to enjoy the outdoors and living in our community.
