Mount Pleasant ANC-1E
P.O. Box 43529
Washington, DC 20010-9529

May 5, 2001

Jerrily R. Kress, Director
Board of Zoning Appeals
Office of Zoning
Government of the District of Columbia

Dear Mr. Kress:

At the April 2, 2001, the Mount Pleasant Advisory Neighborhood Commission 1-E held a public hearing to discuss BZA Application No. 16697. The meeting was advertised in each of the six single member districts within the ANCs boundaries. The ANC requires that four members of the commission be present to constitute a quorum; all six commissioners were present at the meeting.

The commissioners of ANC-1E have no issues or concerns with the application. The request, for part of a first floor addition to build a bedroom and bath, was opened to the community for discussion. There was no opposition, and Commission unanimously voted to support the zoning variance for 1631 Harvard Street, NW.

The ANC passed the following resolution:

> *ANC-1E hereby supports the variance proposed under BZA application No. 16697 in reference to 1631 Harvard Street.*

The Commission named the Chair of the Committee of Environment and Infrastructure to convey the vote of the ANC to the BZA.

Sincerely,

Christopher Shaheen, ANC-1E01
Chair, Committee of Environment and Infrastructure

Cc: Mr. and Mrs. Yeats
