Career Profile

Prior to becoming a partner at Maddox Engineers & Surveyors, Inc., Mr. Norris has worked for some of the largest and most prestigious surveying firms in the metropolitan area, managing civil engineering projects while providing clients with expert advice on land development issues.

While earning his Bachelor of Science Degree in Civil Engineering at the University of Maryland, Mr. Norris was a Fellowship Appointee to the United States Department of the Army and was also employed by several land surveying and engineering firms as a draftsman and designer. Upon his graduation, he worked as a Design Engineer for Maddox & Associates, Inc., until 1982. During the next several years, Mr. Norris was employed by other well-known professional firms and was soon promoted to the position of Project Manager supervising designers, surveyors, and managing land development engineering projects.

In 1989, Mr. Norris joined Maddox Engineers & Surveyors, Inc., as a Partner and Principal in charge of Civil Engineering. Respected for his experience and knowledge, Mr. Norris has also provided professional testimony in zoning and subdivision cases in Montgomery, Frederick, Prince George's and Baltimore counties.
