I am requesting authorization to put an over and stove in the basement of my home, located at 6300 - 33rd St., N.W. The reason for this request is that my father, a senior citizen, is moving in with my family, so we can assist him with every day living. We have renovated our basement to create an apartment for him (see attached plans and DCRA approvals). However, the DCRA would not approve the installation of an over and stove in the renovated kitchen area without authorization from the Zoning Board. Accordingly, I request that you authorize installation of an over and stove in the basement area.

Please contact me if you have any questions. If possible, we would be most appreciative if this request could be expedited since he is scheduled to move in by April 1, 2001. Thank you for your time and consideration of this request.
