RE: Clarification of Relief Being Sought

Given the differences in the information given on the applicant's BZA Form 2 and the ZA memo, I confirmed by a 4/3/01 telephone call with the applicant, that the following relief is needed in the above matter:

Special exception approval of a private school for 40 students – grades 1st thru 7th and seven (7) staff under § 206

Special exception approval of a child development center for 20 children – grades nursery thru kindergarten and four (4) staff under § 205

Variance from the parking requirements under § 2101.1 (1 required for the CDC, and 3 required for the private school) totaling 4 spaces required
