Statement of existing and intended use of space behind the house at 2105 N Street, N.W.:

When I moved into this house in 1978 there was a dilapidated and unusable garage behind it, which the seller agreed to have torn down. I now would like to have a carport built on the existing foundation of the old garage. No change in use of the property will occur (I park my car there) and no other modifications to the space are planned. I will also replace the existing damaged and weather-beaten fence with a new natural wood fence in keeping with the carport.
