Re: BZA Case #16737
Chadwick Residence
1406 30th Street, NW
Washington, DC 20007

Dear Ms. Kress,

Before I get into the main purpose of my letter, I would first like to compliment the fine efforts of your staff in helping us get our variance filed. Ms. Booth was helpful in clarifying the BZA rules regarding submissions. Mr. Richard Nero reviewed our submission documents to make sure they were in compliance with BZA regulations, and offered a few critical comments. After all of the criticism that the city bureacracy weathers, it was a pleasure to be aided by these professional employees. I greatly appreciated their efforts.

Yesterday we filed for a variance for a rear roof dormer at the above address. I am writing at this time to request an expedited hearing for this project.

Our main purpose in requesting a speedy hearing is the overall length of time in getting our project through the permit process. Because this project is located in Georgetown, we have already been in the Fine Arts/Old Georgetown Board process since last month, and will have to continue with this process should we have a positive result from the BZA. After this, we will have to go through the standard permit process at the DCRA.

We would appreciate anything you can do to see that this project gets on the schedule at the earliest possible date.

Sincerely,

Christopher R. Snowber AIA
