Re: BZA Case #16753

I am opposed to the Special Exception application, BZA Case #16753, that would permit the construction of a monopole (cell tower) in the rear parking lot of the Penn-Branch Shopping Center. A cell tower at this location would negatively impact property values, add to already crowded parking at the Shopping Center, and I am unconvinced that the environmental pollutants emitted from such a facility, would pose no health or safety risks to me or my neighbors.

I believe the BZA should reject this special exception application and explore more reasonable and safer alternatives to erecting a monopole in such close proximity to me and my home.
