August 1, 2001

Mayor Anthony Williams
441 4th Street, NW
Washington, DC

Dear Mayor Williams,

This letter is in protest to an application made for a special exception to permit an antenna, other that a commercial broadcast antenna, use in the R-1-B District. This proposed use of property is located at the Penn-Branch Shopping Center in South East Washington at Pennsylvania and Branch Avenue.

We believe that the placement of this antenna at the proposed location would adversely affect neighbor property both aesthetically and financially. We also have reason to believe that it may have a negative affect on existing health concerns and possibly create new health concerns for residents living in the Penn-Branch Community.

We are requesting that you give serious concern to this application process. Finally, would you want to look out of your bedroom or kitchen window and see the proposed antenna?

With Respect,

Henry & Juanita Pinkney
