BZA 16755

To whom it may concern:

I reside with my family at 218 5th Street, SE, immediately to the north of the home of Rick Thomas and Laura Canfield. I am familiar with the proposed extension for which Rick and Laura have sought a special exception. I believe that the extension fits in well with the character of our neighborhood. Also, as a Capitol Hill parent, I believe it is important to encourage families with children to remain on the Hill, especially families willing to take an active role in neighborhood and school affairs. To this end, I support reasonable accommodations to facilitate the retention of Capitol Hill families, and the proposed limited extension to add a bedroom for Rick and Laura's son certainly meets this description. In sum, I support the proposed special exception without reservation.

Sincerely,

Amir Yeroushalmie
