Reference: Case Number 16756
Application of Teddy L. Houston

Dear Ms. Pruitt,

The Board granted my Application No. 16756 in 2002 for a variance from the lot occupancy provisions under section 403, and a variance from the provisions that prohibits enlargements of an existing structure that is nonconforming as to lot occupancy under subsection 2001.3, to allow the construction of an accessory garage in the R-4 District at my premises, 525 9th Street, S.E. (Square 949, Lot 830).

I submitted plans and applied for permits in February 2002. The permits were issued, but I was unable to begin work on the garage due to unforeseen financial issues at the time. The financial issues are now resolved and I and am prepared to have the garage constructed in the spring of this year. When we talked after the Board approved the application, you mentioned that the Summary Order forwarding the Board's approval of the application would be valid for two years, but that an extension is possible if I was not in a position to have the garage constructed right away.

In reading the Summary Order, I note that it states the order would not be valid for more than two years unless within that period, the applicant files plans with the Department of Consumer and Regulatory Affairs for purpose of securing a building permit. I did so but the permits have expired and I will need to secure new permits. The situation with the garage remains the same as in the Application No. 16756. I intend to do just as stated in the application using the plans that have been approved by the city already.

Can you advise me on how to obtain an extension so that I can have the garage constructed this year? I would certainly appreciate your help. I can be reached by telephone at: office: 703-588-7068; home: 202-546-6541; cell: 202-441-5209; fax: 703-696-4475. I can also be reached by email at teddy.houston@pentagon.af.mil.

Sincerely,

Teddy L. Houston
