BRIGHTWOOD COMMUNITY ASSOCIATION
TESTIMONY BEFORE THE BOARD OF ZONING ADJUSTMENT
IN THE MATTER OF CASE #16784 (COMCAST)

October 9, 2001

My name is Reba M. Diggs, Treasurer of the Brightwood Community Association (BCA), who has resided at 6404 13th Street, N.W., since September 1959.

BCA is a non-profit civic organization whose members have worked diligently to keep their community a beautiful, pleasant, healthy and safe environment for themselves and others for almost a half century. On behalf of the members of BCA and many others in the Brightwood community, we come to you opposing Comcast's placement/building of an Optical Transmission Node (OTN) in the 6300 block of Piney Branch Road, N.W. (stated to be 6336 Piney Branch).

While Comcast is eager to improve the quality of cable reception and advance the community with new technology, we, the residents of the Brightwood community, do not want it at any expense--briefly stated, WE DO NOT WANT THIS STRUCTURE IN OUR RESIDENTIAL COMMUNITY. Our major reasons for opposing this building are:

1. The proposed structure is incompatible with the architectural and residential nature of the Brightwood community and is not in harmony with the general

purpose and intent of the zoning regulations and Maps (Title 11, Section 3108.1 of the District of Columbia Municipal Regulations).

2. The proposed structure is in violation of the zoning codes of the District of Columbia for the area selected and will adversely affect the use of the neighboring property.
3. COMCAST received a zoning permit inconsistent with the process for the District of Columbia's Municipal Regulations.
4. The proposed structure will have an unknown and potentially detrimental impact on the environment, the neighborhood and the health of the residents in the Brightwood community.
5. The proposed structure will have an adverse impact on property values in the Brightwood community.

Comcast did not solicit the taxpaying homeowners of this community to discuss the planning and building of this structure in our neighborhood. Rather, they hastily pursued and were given a permit to start constructing the OTN (a commercial establishment) in a residential area. From the onset of this project, the residents of the Brightwood community were mislead in that early in the process Comcast told residents that a house was being put in that location.

In an August 17, 2001 letter to Comcast from Mr. Michael D. Johnson, Zoning Administrator for the District of Columbia, he explains that his employee's decision to grant Comcast a building permit **was inconsistent** with DC's Municipal Regulations. In this same letter, Mr. Johnson states:

"In order to assist your effort, I have contacted OZ and requested an expedited review. I have received assurance that OZ's staff will do everything possible, to see that my request is adhered too."

On August 20, 2001, Comcast filed for a Special Exception Permit for Comcast to install the OTN on Piney Branch Road, N.W. On August 21, 2001, Comcast received a hearing date of October 9, 2001.

The members of the Brightwood Community Association and concerned neighbors request your favorable review of our plea and deny Comcast the authority to build the OTN on Piney Branch Road, N.W. In support of our plea, attached are forty-four pages of our petition representing 368 signatures.

Thank you for your time and allowing us the opportunity to make our position known.

Reba M. Diggs, Treasurer, BCA

Gerri Adams-Simmons, President, BCA
