To Whom It May Concern

My Name is Zina M.Glenn. I live at 1247 I St. N.E. I am writing this letter to inform you that the Fishing School is a great asset to the community. The Fishing School has help so many children by tutoring them with their homework and how to resolve conflicts with their peers in a positive way. They have been big brothers big sisters and even sometimes mothers and fathers. Some of these children come from single parent family or live with other family members. The school has been there for the children. Now you may ask how I know ? I am a single mom with two living children and one decease child. My children use to go to the fishing school for tutoring with their homework. When my son Le ron Perkins, was killed on December 19,1995 Mr. Lewis and the school was right there for me and is still there for me. Every chance that I get I will give the children educational material and pens and rulers and other fun things. In closing please allow the Fishing School to stay in my community, we need more faith base, mentoring school in all of our communities.

Sincerely,

BZA
