December 14, 2001

Rec'd.
12.18.01

Mrs. Abigail Parker was in a very serious car accident and was hospitalized. As a result she was late posting the required notice

This letter certifies that I have first hand knowledge that she went to introduce herself to the neighbors telling them of her intentions. In addition, she attended community meetings seeking support and she sent letters to tell the homeowners that she was making application for special exception for day care, an extention of her existing day care.
