Re: #16811

Owing to a postponed regular ANC 6A meeting Thursday, Jan 3, '02 a statement created of our responses has not been entered in the record of BZA file # 16811.

A group of neighbors addressed the ANC at 900 G St. December 12th (the zoning and licensing committee) on that date.

Because our view has been one of disbelief at the fact that building has continued to be worked on while harm is being done to the neighbors' property on 11th St.

We live on tenth and are aware of impending development behind us.

We would like you to know we support the Pritchard family in their appeal of the D.C.R.A granted building permit without first seeking a "special exception".

Please enter this in the record.
