RE: BZA Application No. 16814 – Case Status

On February 21, 2002, I called Mildred Garcia, the applicant's contact person in the above-referenced application. Ms. Garcia advised me that she was having trouble finding an architect/engineer to verify the gross floor area of the subject building in order to determine the degree of FAR variance relief needed. Ms. Garcia stated that she met with an official in the Zoning Administrator's office who advised her that the information was needed in order to prepare a BZA referral memorandum in lieu of her self-certifying. Ms. Garcia noted that due to her job demands that it would be another month before the foregoing is accomplished. Note: The application was filed on November 8, 2001. See Exhibits 15 & 18.
