November 6, 2001

Julius,

This is to confirm our conversation concerning plans for the expansion of your kitchen next door at 2926 33rd Place, NW. I have reviewed the attached plans showing an 8 foot extension in the back of the building right along the property line on the far side of your property and extending 4 feet from the existing building towards my property. I hav no objection to the proposed construction. I trust this will facilitate your building permit.

Sincerely,

Alison Harwood
