Attn: Beverly Bailey

Dear Ms. Bailey:

This has reference to your conversation today with Richard Gangloff, who is acting as a permits consultant on my behalf in regards to my zoning application for my property located at 816 E. Capitol Street, N.E., Washington, D.C. 20003.

It is unfortunate that I have to make this request, as we have been waiting for more than 6 months to reach the hearing process for my application. I have a meeting presentation with congress scheduled for the same day at 8:15 a.m. However, I should be finish by 9:45 a.m. The appointment time that I am to appear for the hearing is on the same day at 9:30 a.m. and I understand from Rick, I am first on the docket possible arriving too late for this appointment. Is there anyway I could come in the afternoon on that same day or even later in the morning? Rick mentioned a possibility to swap appointments for the afternoon.

My office phone number is 202-478-8322; and my assistant's name is Freda Amar. I will have her call you on Monday morning to followup to this request.

I appreciate your consideration.

Sincerely yours,

Stanley B. Greenberg
Chairman
