RE: Request to be Heard at Hearing on Washington Home's Proposed Expansion of Building and Parking Lot on April 2, 2002 (BZA Application #16836)

Dear Chairman Griffis:

My name is Jonathan Graham. I live at 3643 Tilden Street N.W., directly across the street from one of the entrances to the Washington Home and across from its parking lot. I am opposed to the Washington Home's proposed parking lot expansion because it will increase traffic in a residential area that already suffers from traffic congestion and because of the negative aesthetics of such an enormous expansion. I have been working with the other citizens in the neighborhood who are concerned about the Washington Home's proposal and believe there is a great deal of opposition to the proposal. I believe that because of my location directly across from the current and proposed parking lot and across from one of the two entrances to the parking lot that our family is the neighbor most aggrieved by the proposed parking lot expansion. I thus would like an opportunity to be heard at any hearing on the matter, including any hearing to be held on April 2, 2002.

Thank you for your consideration of this request.

Very truly yours,

Jonathan P. Graham
