Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. For reason's relating to safety, work hours, lack of commuting options, other employment, and/or daycare, I must drive my car to work. Many times, when I get to work, there are not any parking spaces available and I am forced to look for a space on the street. Just as often, there is not a close parking space available on the street. By the time I am able to park my car and walk back to The Home, I am late for my shift. This is unacceptable to me and directly affects other staff that I am relieving of duty. Parking on the street also requires me to leave my unit/department every two hours to move my car or face a parking ticket.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely,

Elizabeth Davis

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because I leave MARYLAND, without having my own car, I will always come late to work, because I have a little Baby I have to take to Baby Sitter, before As a result of the parking restraints at The Home, I have had problems with Parking everytime I park, I always page to come and remove my car, even though, I may be busy a the resident, I have to leave Patient and mount the care, It is very helpful, and Secure.

I come to work

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because AS A NURSE, MY SERVICES ARE REQUIRED ANY TIME OF THE DAY AND VERY PROMPTLY TO DEAL WITH THE HEALTH ISSUES OF MY RESIDENTS. As a result of the parking restraints at The Home, I have had problems with LOOKING FOR SPOTS TO PARK MY CAR THEREFORE DELAYING ME IN RENDERING PROMPT AND URGENT HEALTH CARE TO MY RESIDENTS. I CANNOT BE WASTING TIME AT THE PARKING LOT WHICH IS SMALL AND FULL ALREADY JEOPARDISING THE HEALTH OF OUR CONSUMERS.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because my car is needed as a method of transportation for visiting hospice patients that desire to receive care and support at their private residence located within this community and the surrounding areas.

As a result of the parking restraints at The Home, I have had problems with no available parking spaces and no close parking space available on the street. Parking on the street also requires me to interrupt meeting the needs of residents and or their family members to move my car every two hours or face a parking ticket.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because N/A. As a result of the parking restraints at The Home, I have had problems with N/A.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely,

Mary Parker

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. For reason's relating to safety, work hours, lack of commuting options, other employment, and/or daycare, I must drive my car to work. Many times, when I get to work, there are not any parking spaces available and I am forced to look for a space on the street. Just as often, there is not a close parking space available on the street. By the time I am able to park my car and walk back to The Home, I am late for my shift. This is unacceptable to me and directly affects other staff that I am relieving of duty. Parking on the street also requires me to leave my unit/department every two hours to move my car or face a parking ticket.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because I drive my child to school because we don't have a public transportation option near our home. As a result of the parking restraints at The Home, I have had problems with getting to meetings on time because you never know how long it could take to find a parking place on the street.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

As an employee of The Home, dealing with parking issues is a daily frustration. For reason's relating to safety, work hours, lack of commuting options, other employment, and/or daycare, I must drive my car to work. Many times, when I get to work, there are not any parking spaces available and I am forced to look for a space on the street. Just as often, there is not a close parking space available on the street. By the time I am able to park my car and walk back to The Home, I am late for my shift. This is unacceptable to me and directly affects other staff that I am relieving of duty. Parking on the street also requires me to leave my unit/department every two hours to move my car or face a parking ticket.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely, Lu Creasey A Blackman

Many times, when I get to work, there are not any parking spaces available and I am forced to look for a space on the street. Just as often, there is not a close parking space available on the street. By the time I am able to park my car and walk back to The Home, I am late for my shift. This is unacceptable to me and directly affects other staff that I am relieving of duty. Parking on the street also requires me to leave my unit/department every two hours to move my car or face a parking ticket.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely,

Bonnie J Hensley

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because I live very far and public transportation is sometimes too slow. . As a result of the parking restraints at The Home, I have had problems with parking tickets. I am also afraid to walk to my car when it is parked too far away on the streets. .

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely,

Ethel J. Ratliff
