Dear Mr. Young

Per our phone discussions in May, and as a follow up to the Board's approval with changes required to the submitted design to the above referenced project. Enclosed are revised drawings reflecting my understanding of Conceptual approval for the Suskind's addition.

Please note the following:

1. The number and size of the skylights has been significantly reduced to reflect a more traditional roof scape.
2. The size of the glass lites in the triangular space above the doors has been reduced and more divider/mullions added to the design to reflect a more traditional glass/window pattern.

Please review and confirm these modifications. Note, we are pursuing BZA approval due to side yard setback and lot coverage zoning issues, and thus will not be seeking Final approval until after the zoning issues are resolved.

Thank you very much,
Sincerely,

Craig A. Morgan

Cc:Gerald and MaryJane Suskind
