Reference: 434 Shepherd Street, NW

Dear: Sir/Madam

I am here requesting to add a delicatessen to my existing grocery store. The consistent history of use at subject premises has been a grocery store for number of years. I intend to continue said use but seeks to obtain a delicatessen license to service client's need for coffee, donuts and mostly prepackaged sandwiches. There will be no expansion to the subject property and no seating (carry out). Buildings codes compliance does not require significant change to interior of building and no change whatsoever to the exterior. Hence, I can achieve objective without addressee impact to neighboring and or adjacent properties.

I appreciate in advance for your consideration for my request.

Regards,

Terefa Endale
