Re: BZA Application No. 16911 (700 Brandywine Street, S.E., Square 6163, Lot 125)

Dear Members of the Board:

As a resident located at 692 BRANDYWINE ST S, S.E. I wholeheartedly support the Brandywine Street Association's request for special exception and variance relief so that it may rehabilitate the building at 700 Brandywine Street and use it for a community service center and community development center that will serve the residents of the community. This relief is necessary in order to allow this important project to become a reality for a struggling area in the Southeast section of the City.

The current structure on the site is vacant and dilapidated and serves as a magnet for crime. We applaud the Applicant's efforts to turn the building into a use that will serve and uplift the community. After hearing a detailed explanation of the application from representatives of the Brandywine Street Association, we believe the proposed uses will have no adverse affect on the community around 700 Brandywine Street; rather it will uplift the community and give well-meaning and earnest residents a resource that will help make them more productive members of our community. The Association also demonstrated to us that it would be unnecessarily burdensome for it comply with the provisions of the Zoning Regulations relating to lot occupancy, floor area ratio, open court, and parking, and that a variance from those provisions would not adversely affect the surrounding property or community.

As a community, it is important that we marshal all available resources in order to revitalize deteriorating and blighted areas. The Brandywine Street Association has stepped to the plate in order to make a difference in our community. We therefore give our support to their efforts, and urge the Board's approval of their application for zoning relief.

Sincerely,
Signature [signature]

Re: BZA Application No. 16911 (700 Brandywine Street, S.E., Square 6163, Lot 125)

Dear Members of the Board:

As a resident located at 636 Brandywine St SE, S.E. I wholeheartedly support the Brandywine Street Association's request for special exception and variance relief so that it may rehabilitate the building at 700 Brandywine Street and use it for a community service center and community development center that will serve the residents of the community. This relief is necessary in order to allow this important project to become a reality for a struggling area in the Southeast section of the City.

The current structure on the site is vacant and dilapidated and serves as a magnet for crime. We applaud the Applicant's efforts to turn the building into a use that will serve and uplift the community. After hearing a detailed explanation of the application from representatives of the Brandywine Street Association, we believe the proposed uses will have no adverse affect on the community around 700 Brandywine Street; rather it will uplift the community and give well-meaning and earnest residents a resource that will help make them more productive members of our community. The Association also demonstrated to us that it would be unnecessarily burdensome for it comply with the provisions of the Zoning Regulations relating to lot occupancy, floor area ratio, open court, and parking, and that a variance from those provisions would not adversely affect the surrounding property or community.

As a community, it is important that we marshal all available resources in order to revitalize deteriorating and blighted areas. The Brandywine Street Association has stepped to the plate in order to make a difference in our community. We therefore give our support to their efforts, and urge the Board's approval of their application for zoning relief.

Sincerely,
Signature Teresa Holley

This relief is necessary in order to allow this important project to become a reality for a struggling area in the Southeast section of the City.

The current structure on the site is vacant and dilapidated and serves as a magnet for crime. We applaud the Applicant's efforts to turn the building into a use that will serve and uplift the community. After hearing a detailed explanation of the application from representatives of the Brandywine Street Association, we believe the proposed uses will have no adverse affect on the community around 700 Brandywine Street; rather it will uplift the community and give well-meaning and earnest residents a resource that will help make them more productive members of our community. The Association also demonstrated to us that it would be unnecessarily burdensome for it comply with the provisions of the Zoning Regulations relating to lot occupancy, floor area ratio, open court, and parking, and that a variance from those provisions would not adversely affect the surrounding property or community.

As a community, it is important that we marshal all available resources in order to revitalize deteriorating and blighted areas. The Brandywine Street Association has stepped to the plate in order to make a difference in our community. We therefore give our support to their efforts, and urge the Board's approval of their application for zoning relief.

Sincerely,

Re: BZA Application No. 16911 (700 Brandywine Street, S.E., Square 6163, Lot 125)

Dear Members of the Board: 415 BRANDYWINE ST, S.E.

As a resident located at Phillip Duren, S.E. I wholeheartedly support the Brandywine Street Association's request for special exception and variance relief so that it may rehabilitate the building at 700 Brandywine Street and use it for a community service center and community development center that will serve the residents of the community. This relief is necessary in order to allow this important project to become a reality for a struggling area in the Southeast section of the City.

The current structure on the site is vacant and dilapidated and serves as a magnet for crime. We applaud the Applicant's efforts to turn the building into a use that will serve and uplift the community. After hearing a detailed explanation of the application from representatives of the Brandywine Street Association, we believe the proposed uses will have no adverse affect on the community around 700 Brandywine Street; rather it will uplift the community and give well-meaning and earnest residents a resource that will help make them more productive members of our community. Dear Zoning

I am writing this letter to express my full support of the Brandywine Street Association up coming building project at the vacant building at 700 Brandywine St. S.E.

The building now is a place for drug dealers, dumping bulk trash and all kinds of unwanted activities.
I applaud the new "Brandywine Empowerment center" to come to my community, I truly believe it will make a positive difference here on Brandywine Street.

Sincerely
Donna Hinton
