3916 LEGATION STREET, N. W.
WASHINGTON, D. C. 20015

Members of the Board of
Zoning Adjustments:

I am writing to support
Dr. Richard Robinson's proposal
for a parking variance. There
is ample parking available
behind his building to allow for
this.

The advantage of having
Dr. Robinson in the neighbor-
hood is two-fold - first,
the convenience of dental
services without fighting
traffic and parking down
town - and secondly, the
sense of community is very
important for all these
days.

As a senior citizen, the
availability of Dr. Robinson
is very important to me
and my peers.

Sincerely,
Frances J. Gatewood
