Transportation Policy and Planning Administration

MEMORANDUM

TO: Ellen McCarthy
Deputy Director - Development Review
Office of Planning

FROM: Kenneth Laden
Associate Director for Transportation Planning

DATE: November 8, 2002

SUBJECT: **Supplemental Review** - BZA Application No. 16915 – Application for Special Exception for the Continued Use of a Child Development Center Located at 2828 Hurst Terrace, NW, Lot 12, Square 1420

The District Department of Transportation (DDOT) has reviewed your request to provide additional information for the above referenced site. This memorandum provides responses to the two transportation related concerns identified by your office.

- **Were traffic cones considered and approved by DDOT?**

The installation of traffic cones was considered by DDOT as an existing condition used to control curbside activities at the site, however DDOT did not approved them for future use as the control of curbside activities is mandated by regulatory signage or applicable public space permits, which in this situation were not obtained by the applicant.

- **Would DDOT be inclined to officially posting the referenced area as a "No Parking Zone" during drop-off and pick-up times?**

DDOT installs parking regulations in the curb space abutting child development centers throughout the District to ensure the safety of children entering and exiting vehicles. Regulatory signage can be installed to provide a no-parking or loading zone area during the normal pick-up and drop-off times. The applicant should forward a request to the DDOT Curbside Management Division (Division) to investigate the site and determine applicable regulatory signage to be installed. The Ward 3 contact person for the Division is Larry Brown, available at (202) 671-2219.
