In re: 4432 Faraday Place, NW, Case No. 16921

To whom it may concern:

I write to clarify the position of the ANC on the above application. The ANC has not taken a vote on this application and it is not on the agenda for our October 10th meeting. We were contacted by the applicants last month but because they already had a date before the BZA and we could not get them on the next meeting agenda, I advised them it was their choice to either delay the BZA hearing for an ANC vote or to go forward without a vote. Generally, and perhaps in contrast to other ANCs, ANC 3E does not vote on most of these applications. This past fall, however, we did approve a zoning variance for a house in this same block.

If you have any questions, I can be reached at (202) 246-2083.

Sincerely,

Tad DiBiase
Commissioner for Single Member
District 3E03
