Geoffry Griffis, Chair
Board of Zoning Adjustment
441 Fourth Street NW
Washington D. C. 20002

Dear Chairman Griffis:

After devoting much of this year to the Subject property and its fate, and earning the vote of ANC 6A on Nov. 7 (unanimous) to allow me to carry the ANC decision to the BZA on Nov. 19, I Virginia Gaddis, am finding myself in the position of requesting of the Board, a continuance.

This stems from a personal hardship -- my daughter facing the possibility of dangerous surgery in the Atlanta area within possibly a week. My family has arranged to bring me there today despite the nearness of the chosen BZA date.

This is my only daughter --and while there is a volunteer offering to take my place at the hearing, I have been as close to the subject matter as anyone, and would prefer to address it in a few weeks, when my family may have better information relative to this potential surgery.

I believe you will be receiving a letter from the zoning committee of the ANC bringing the vote (quorum of 11--unanimous) as expressed Nov. 7--to your attention.

If Karen Wirt is named as a substitute, she would be more than worthy--however not as acquainted with the details. However I will leave the decision in your hands as to the finished product for the ANC if you so decide.

Thank you for this emergency consideration.

Virginia W. Gaddis

I regret my telephone today is totally unresponsive, preventing me from clearing with all involved persons surrounding our grasp of the subject.

I will hand deliver this letter to the BZA office this afternoon (Thursday)
