Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. For reason's relating to safety, work hours, lack of commuting options, other employment, and/or daycare, I must drive my car to work. Many times, when I get to work, there are not any parking spaces available and I am forced to look for a space on the street. Just as often, there is not a close parking space available on the street. By the time I am able to park my car and walk back to The Home, I am late for my shift. This is unacceptable to me and directly affects other staff that I am relieving of duty. Parking on the street also requires me to leave my unit/department every two hours to move my car or face a parking ticket.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely,

Pamela Stephenson

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because LACK OF TIMELY PUBLIC TRANSPORTATION.

. As a result of the parking restraints at The Home, I have had problems with Having to arrive very early before my shift to ensure a parking spot. Plus various safety issues. Over crowding, possiblity of damage to my vehicle, or being towed if parking on the Streets.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because in accordance with the urgency of my work as a nurse, driving is a necessity, of adequate pt. care to be met. As a result of the parking restraints at The Home, I have had problems with parking. I have to spend over 20 mins. trying for an already parked visitors car to leave, thereby jeopardizing the care of the residents.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely,

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. For reason's relating to safety, work hours, lack of commuting options, other employment, and/or daycare, I must drive my car to work. Many times, when I get to work, there are not any parking spaces available and I am forced to look for a space on the street. Just as often, there is not a close parking space available on the street. By the time I am able to park my car and walk back to The Home, I am late for my shift. This is unacceptable to me and directly affects other staff that I am relieving of duty. Parking on the street also requires me to leave my unit/department every two hours to move my car or face a parking ticket.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely,

Signature

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.

As an employee of The Home, dealing with parking issues is a daily frustration. I must drive my car to work because I live far away & I need my car because the train & bus stop running by the time I get off at 11 30 PM is also dangerous as a woman to be walking alone on the road. As a result of the parking restraints at The Home, I have had problems with being late for work & getting tickets & during inclement weather your uniform get dirty & wet. Coming late is also unfair to my co workers.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

As an employee of The Home, dealing with parking issues is a daily frustration. For reason's relating to safety, work hours, lack of commuting options, other employment, and/or daycare, I must drive my car to work. Many times, when I get to work, there are not any parking spaces available and I am forced to look for a space on the street. Just as often, there is not a close parking space available on the street. By the time I am able to park my car and walk back to The Home, I am late for my shift. This is unacceptable to me and directly affects other staff that I am relieving of duty. Parking on the street also requires me to leave my unit/department every two hours to move my car or face a parking ticket.

I am proud to work at The Washington Home & Community Hospices and I believe in its mission to "provide quality health-care and end of life services, with compassion and innovation, to foster dignity and independence in those we serve." Worrying about parking and parking tickets does not help us provide the best care we can for our residents.

Please approve The Home's application for additional parking spaces and hospice beds so that we can continue to provide excellent services to our residents and the community.

Sincerely,

Signature

Re: Case No. 16836

Dear Members of the Commission:

I am writing in full support of The Washington Home & Community Hospice's application to add four beds to its inpatient hospice unit and additional needed parking for employees and visitors.
