REGARDING 16944 Georgetown Day School's application

Board of Zoning Adjustment,

Georgetown Day School has been a horrible neighbor. GDS students, for years, have been illegally parking, littering, and smoking in alleys all through this usually quiet neighborhood.

GDS faculty and administration have done nothing to enforce their agreements, other than just this year. It is obvious that their application for a special exception is the reason behind their new efforts.

I am most concerned that GDS now has to rely upon private police to enforce what should have been enforced a decade ago.

I implore you to not grant this special exception, GDS has never acted in good faith with this neighborhood and should abide by the original agreements.

Sincerely,

Adriana Buonocore
