APPLICATION 16944

Board of Zoning Adjustment members:

I am firmly opposed to a student and faculty increase for the Georgetown Day School. I live on Ellicott Street facing the block where GDS is located. I endure illegal parking, litter, excessive noise, and students smoking in my alley throughout the school year. These were the very concerns we residenta addressed 15 years ago in the initial Zoning application.

GDS has not honored any part of the original agreement, why should we allow them to increase their capacity? Only recently has GDS addressed these concerns; our complaining has never had any effect. I believe the private police presence is a temporary fix and the students and parking lot behavior will soon return. We need to first see if GDS students will comply without the GDS "police."

I request that this special exception be denied and that GDS is fined for their years and years of violations.

Sincerely,

Bertha Aed
