Re: Foggy Bottom Feeding Program

Dear Jack:

We just received a copy of the Zoning Commission's order for the PUD modification for 1957 E Street. Enclosed is a copy. The order is scheduled to become effective upon publication in the D.C. Register, August 16, 2002. We are currently applying for a certificate of occupancy for the residential wing and the parking and we hope to have them by the same date.

Condition 9(a) of the Order specifies the conditions for the Feeding Program. The Order requires the initial $100,000 payment to be made when the certificate of occupancy is issued. If the Feeding Program is not in operation, however, the Order provides that the $100,000 is to be paid to "an existing, nonprofit food service program selected by the Foundation until (a) the Feeding Program begins or resumes operation . . . ."

Given the long lag time between the Zoning Commission's hearings and vote, and the issuance of this order, the Feeding Program is not yet in operation. Accordingly, please convene a meeting of the Foundation and select an existing, nonprofit food service program to which the initial $100,000 payment should be made. Once the Foundation's selection is made, please advise me and the University will issue a check to that organization.

Sincerely,

Charles K. Barber
