Ms Jerrily R. Kress
Director, Office of Zoning
441 – 4th Street, NW Suite 210-S
Washington, DC 20001

Dear Ms. Kress:

This letter is verify ANC 7D supports the DC Department of Public Works request for zoning for the Benning Road Transfer Station, at 3200 Benning Road, NE. Representatives from DPW have met with the ANC to brief us on planned improvements to the site, and have committed to regularly update the ANC as the project progresses.

The ANC applauds the Department's plans for the Benning Road facility. Those alterations, which include plans for an addition to the building, will improve trash transfer operations in the District, by:

- Improving environmental pollution controls at the site;
- Upgrading the odor and dust control systems;
- Providing a safe, improved area for citizen drop-off of household hazardous wastes and bulk items and
- Restoring capacity, allowing the District to handle both public and privately hauled trash.

We believe those improvements to the facility will prove to beneficial to the residents in ANC 7 D, as well as to other District residents.

Furthermore, as the representative of the Single Member District that will house this new modern facility, I look forward to its construction. I also have been assured the Department of Transportation has studied the traffic light situation and the Department of Public Works will monitor the immediate area for increased evidence of blowing trash, rodents and vermin.

As a final note, if there is planned advisory board or such related to the facility, I would like to be considered for a voting position on such a board.

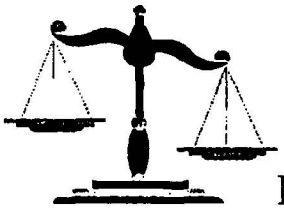

Sincerely,

Raymon Murchison

Raymon Murchison
Commissioner, 7D07
