Re: BZA Application No. 16970
National Child Research Center

Dear Ms. Piggott:

On behalf of the Cleveland Park Neighbors, we request that you provide to us a copy of any and all reports and/or surveys relating to the National Child Research Center (NCRC) that relate to engineering matters involving the existing property and NCRC's proposals to renovate and/or construct new buildings or otherwise to make changes to the property.

It is our understanding that NCRC engaged Wiles Mensch Corporation, Reston, Virginia, to conduct a civil engineering study of the NCRC property involving, among other things, issues relating to excavation, utilities, storm water management and landscaping. It is also our understanding that NCRC engaged The Structural Engineering Company, BEI (Bailey's Crossroads) (Tom Russello) to conduct studies of the property. If NCRC has hired these firms and/or individuals and/or any other firms or individuals for work of this nature, please provide copies of any and all reports (including all exhibits) to me.

I would appreciate your immediate response to this request, as the next hearing before the Board of Zoning Adjustment (BZA) is scheduled for June 24, 2003. The most expeditious manner to provide these materials is for you to leave a copy of these materials at my house (3071 Ordway Street), either on my front doorstep or by the back basement door down the driveway near our garage.

BZA
Case No. 16970
Exhibit No. 204

Board of Zoning Adjustment
District of Columbia
CASE NO.16970
EXHIBIT NO.204

If you have any questions, please telephone me during the day at 202 616-8283 or at home 202 537-1853.

Thank you for your cooperation.

Very truly yours,

Jane W. Vanneman
