BZA Case 16970: National Child Research Center, Applicant

Photos to accompany testimony by Laine Shakerdge Kaufman, a Party

BZA
Case No. 16970
Exhibit No. 265

Board of Zoning Adjustment
District of Columbia
CASE NO.16970
EXHIBIT NO.265

NEIGHBORS' RESPONSE TO NCRC PROJECT

FOR
AGAINST

1. Photo taken on a Sunday; NCRC not in session. Looking east on Highland Place; sharp, blind curve is at entrance to NCRC. Note: no sidewalk on south side of street.

2. Photo taken on Sunday; NCRC not in session. Looking west on Highland Place; sharp, blind curve is at entrance of NCRC.

3. Two illegally parked cars close in the intersection of Highland Place and 33rd Place.

4. Afternoon pick up time on Highland Place, looking west. The parked cars on the right side of the photo are mostly those of NCRC staff and parents. The pick up car pool line in the center, and the truck, or at other times, cars, totally block the street, forcing west bound traffic to back up all the way down the street.

5. A car parked illegally on 33rd Place. To make enough room for his car at this location, the driver moved the cone that NCRC had placed there to prevent illegal parking.

6. This photo was taken from my front window. You see cars 3 deep across Highland Place—and one is going in the wrong direction.

7. Illegally parked car in front of NCRC.

8. Please notice, because of the vintage of the houses, many neighborhood driveways are shared by 2 houses, so it's not as if I can arrive home and just pull into MY driveway. My neighbor may already be in it.

9. Here is a driverless car, double parked, while the parent chats with the driver of another double parked car.

10. Two cars illegally parked on the corner of Highland Place at 33rd Place; one in front of a stop sign, the other parked too close to the stop sign.

11. This car, with a parent and child approaching it, is illegally parked in front of a "No Parking" Zone sign on 33rd Place.

12. On days when the school has special events, NCRC tries to mitigate the problems. However, despite security hired by NCRC, during a school event, cars line both sides of the street, creating only one lane of traffic available for two-way traffic.

13 & 14. Two cars clearly ignoring NCRC's cone are parked in front of a "No Parking Anytime" sign on 33rd Place. Another car, again, ignoring NCRC's cone and parked illegally in a "No Parking Anytime" zone.

15 . Here are 3 cars illegally parked on 33rd Place. The green one is facing in the wrong direction. The red one is jutting out onto Highland Place.

Photo 16. The white delivery truck, on the right side of the photo, is illegally parked, and facing the wrong direction on Highland Place. I witnessed the driver of the truck returning to it from NCRC, during afternoon pickup time. I took this photo standing in front of my house on October 9, 2003 about 3 weeks ago.

17.

17.Looking east on Newark Street, May 13, 2003 at 3:35 pm—NCRC's afternoon pickup time. Ten cars are cued up, waiting to turn onto or cross 34th Street.

18. Photo 18 shows what happens to cars that attempt to make right turns onto Newark Street from 34th during mid-afternoon pick-up at NCRC. They immediately confront a traffic jam of NCRC travelers lined up on Newark Street, waiting to cross 34th Street.
