Case 16974 - Application of Tudor Place Foundation

Dear Members:

We write to add our voices to those concerned about the proposed extension of public and private events at Tudor Place. We appreciate both the importance of this historic monument and the difficulty of keeping it going in the current economic situation. But having to rely on street parking as do many other residents in the area, we can testify that the parking problem has become a crisis. Finding a place to leave our car especially on late evenings when we return from some function and on weekends particularly in the summer has become almost impossible. We urge you either to disapprove the proposed increase in events at Tudor Place and/or that you require its managers to find ways to ameliorate the parking problems that result--e.g., could not the sponsors of such events be required to provide bus or limousine service to take attendees to such functions and pick them up afterward?
