Case No. 16984
Exhibit No. 2

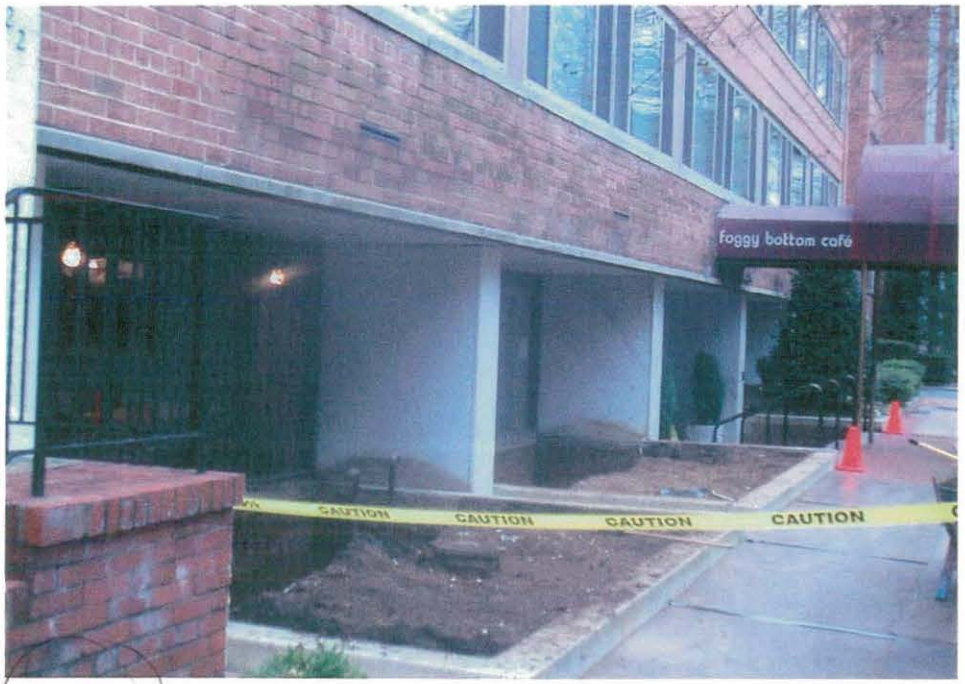

EXISTING AND PROPOSED RESTAURANT WINDOWS

1. Existing window is at bottom right. It is both well recessed behind building façade and screened by 12 feet of landscaping, making the window very inconspicuous

2. Location of proposed windows is shown in two photos at left. The windows are level with façade of hotel, losing 4 feet of recess. A major part of the existing landscaping will be lost. The window will be extremely visible.
