Attn: Jules Gordon

RE: Certification of Tank Disposal originating from – 2133 10th St. NW Washington, DC

Dear Mr. Gordon,

This is to certify that **four (4) 1,000** gallon steel underground storage tanks were removed from the above referenced site on **January 12, 1999**. These steel tanks were taken to our tank dismantling yard located in Lothian, Maryland, where they were purged and treated with No-Flash, a chemical to control flammability. The tank was then disassembled via use of our Plasma Arc Cutting Machine, and all scrap steel was taken to either Super Salvage of Washington, DC, J. Smith & Sons of Washington, DC, Montgomery Scrap Corporation in Rockville, Maryland or Prince Georges Scrap, Inc. in Berwyn Maryland for recycling.

If you have any questions or concerns, please feel free to contact me.

Sincerely,

Stephen Waldron
