MEMORANDUM

TO: Robert Kelly
Dept. of Consumer and Regulatory Affairs

FROM: Lisa Burcham
State Historic Preservation Officer
Office of Planning

DATE: March 7, 2003

SUBJECT: 320 McMillan Drive, NW
Public Safety Communications Project

The Historic Preservation Office has received a request by OCTO to install a new telecommunications lattice tower and a related equipment shelter as a replacement for an existing tower and two monopoles at 320 McMillan Drive, N.W. This tower will be located adjacent to McMillan Reservoir, a local D.C. Landmark, and therefore this project is reviewed by the Historic Preservation Office.

Since the new 180' tower will consolidate an already existing 180' tower and two monopoles, there will be no adverse effect to the historic McMillan Reservoir caused by this project.
