RE: **CASE #17022, NULS VIDEO REBUTTAL OF REBUTTAL**

This memo is regarding the videotape NULS presented in testimony against the proposed expansion of the Edmund Burke School. Mr. Shapiro, the school's headmaster, questioned the manner in which the tape was edited during his rebuttal. As the person who videotaped and edited the video, I wish to respond.

I have accumulated roughly 30 hours of footage throughout the past few years to document the traffic violations by Burke parents and safety concerns I witness regarding Burke students. Because of the lack of time we had to present our case, I had to edit that down to a 10 minute highlight video. The footage of cars and Burke students in the alley was sped up in editing so that I could show numerous safety concerns and only used one day's worth of footage to do so. The encounter I had with the DC police officer was not shown in its entirety, again, because of time constraints.

If the Board wishes to clarify any of the footage presented, I would be happy to show you the unedited tapes. My phone number is 202-362-9706. Thank you for your time and attention to this matter.
