To whom it may concern,

I am a resident of Nebraska Avenue and neighbor of the Knowllwood compound; my house is located directly across the street from the assistant living wing. While I emphasize with the situation at Knowllwood as my own father is dealing with Alzheimer's disease; I have from the start of discussions believed that the moratorium established in 1990 should be kept. It is what separates us living in the democratic United States, from uncivilized places... that when we give our word - it means something! I hadn't gotten involved with the negotiating committee after the first meeting because I believe they should NOT even have been considering expansion at this time period. Breaking trust with neighbors and communities is NEVER a good thing and leads to mistrust, speculation, and resentment.

Respectfully,

Henry (Hank) Janowsky
