D.C. BOARD OF ZONING ADJUSTMENT
2003 SEP 24 PM 3:44

Jerrily Kress
Director, Board of Zoning Adjustment
441 4th St., N.W.
Washington, DC 20001

Dear Ms. Kress:

Please find enclosed 20 copies of a petition opposing the July 3, 2003 Board of Zoning Adjustment (BZA) Application No. 17055 filed by the Army Distaff Foundation.

The petition has been signed by 125 neighbors residing near Knollwood who would be adversely affected by the magnitude and location of its proposed expansion. This is the fourth time that Knollwood has sought permission to expand, and the fourth time that it has sought relief from legal conditions intended to protect the neighborhood, including the 1990 decision of the BZA allowing Knollwood to build a large facility on the express condition that Knollwood not seek permission to build for another 25 years. The neighbors believe that it is important to the integrity of the ANC and BZA process that Knollwood be required to honor its promise, and coupled with the adverse traffic, noise, and privacy effects of this proposed expansion, warrant the BZA's rejection of its application.

Please contact me at the telephone number listed above if you have any questions.

Sincerely,

Larry Fenster

BZA
Case No. 17055
Exhibit No. 27

Board of Zoning Adjustment
District of Columbia
CASE NO. 17055
EXHIBIT NO. 27

PETITION TO DENY KNOLLWOOD'S APPLICATION
TO BUILD AN 80,000 SQUARE FOOT ADDITION
(To be delivered to ANC3/4G Representatives,
Ward 4 Representative and the Board of Zoning Appeals)

We, the undersigned, urge you to reject Knollwood's July 2, 2003 application with the Board of Zoning Adjustment (BZA) for permission to build an 80,000 square foot addition to its existing facilities. In 1990, the Board of Zoning Appeals (BZA) supported a 40,000 square foot expansion only on the condition that Knollwood not engage in additional construction until October 3, 2015.

Knollwood now seeks an exception from this BZA Order to build an 80,000 square foot addition. This addition would violate the long-standing principle, affirmed by BZA, that Knollwood's buildings should be confined to the central parts of its property. The new building will have a footprint of 248 feet by 74 feet. The addition will come within less than 40 feet of residents on 29th St., and will tower over residents on Stephenson Lane. Tennyson neighbors would be staring into an 80 car parking lot, and Nebraska Ave residents would be looking at a new building and bus depot.

Subject: Re: 80,000 Square Foot Addition to Knollwood plus additional parking

Dear All: Phyllis and I are down in Mexico and she won't get back until Sept 1. So please sign our name on the petition as John and Phyllis Wimberly, 6243 29th St NW and keep us informed of anything else you would like us to do. We can always send a letter as a Word doc that you can attach to any filings. Thanks for staying on top of this. john wimberly

PETITION TO DENY KNOLLWOOD'S APPLICATION
TO BUILD AN 80,000 SQUARE FOOT ADDITION
(To be delivered to ANC3/4G Representatives,
Ward 4 Representative and the Board of Zoning Appeals)

We, the undersigned, urge you to reject Knollwood's July 2, 2003 application with the Board of Zoning Adjustment (BZA) for permission to build an 80,020 square foot addition to its existing facilities. In 1990, the Board of Zoning Appeals (BZA) supported a 40,000 square foot expansion only on the condition that Knollwood not engage in additional construction until October 3, 2015.

Knollwood now seeks an exception from this BZA Order to build an 80,020 square foot addition. This addition would violate the long-standing principle, affirmed by BZA, that Knollwood's buildings should be confined to the central parts of its property. The new building will have a footprint of 248 feet by 74+ feet. The addition will come within less than 40 feet of residents on 29th St., and will tower over residents on Stephenson Lane. Tennyson neighbors would be staring into an 80 car parking lot, and Nebraska Ave residents would be looking at a new building and bus depot.
