Dear Sir/Madam,

This letter is in support of Fuad Alykhan's application for a second floor rear deck at 2609 P Street, NW, Washington D.C., 20007. His plan for a small deck in the back of his home is a reasonable approach for availability of an outside sitting area. The current area behind his home is enclosed by high walls and an air conditioning unit. This limits light and space in that area and hence the lack of a space to enjoy the outside environment.

Dear Sir/Madam,

I am writing this letter in support of Fuad Alykhan's application. He resides at 2609 P Street, NW, Washington D.C., 20007. His plan for a small deck in the rear of his home is appropriate due to the unavailability of an outside sitting area. The area behind his home has high walls and an air conditioning unit which is limiting to light and space. It is not an area to relax and appreciate the weather or sun.

Thank you,
