Please answer all of the following questions referencing why the above person should be granted party status.
(If you require additional space, please attach an additional sheet.)

1). How will the property owned or occupied by such person, or in which the person has an interest be affected by the action requested of the Board?
I am in support of their addition. They have two children and live in a small home and their family life would benefit greatly. Also, this would beautify the home in a pleasant way

2). What legal interest does the person have in the property? (i.e. owner, tenant, trustee, or mortgagee)
None.

3). What is the distance between the person's property and the property that is the subject of the appeal or application before the Board? (Preferably no farther than 200ft.)
less than 108 ft.

4). What are the environmental, economic or social impacts that are likely to affect the person and/or the person's property if the action requested of the Board is approved or denied?
The benefits of this addition would add value to themselves and the neighbors as well as bring the home size of the home in a manner to what is more consistent to the others.

5). Describe any other relevant matters that demonstrate how the person will likely be affected or aggrieved if the action requested of the Board is approved or denied.
Their small home is not consistant with the other larger homes in the immediate area, therefore, it would bring their house into the proper design consistant to the others

6). Explain how the person's interest will be more significantly, distinctively, or uniquely affected in character or kind by the proposed zoning action than that of other person's in the general public.

). Describe any other relevant matters that demonstrate how the person will likely be affected or aggrieved if the action requested of the Board is approved or denied. They live in a very small home. The denial of this would decrease the value of their investment as well as affect their home life/family life in terms of tight space.
